

# Prosperity Plan Regional Survey Results Summary

The Prosperity Plan Survey was mailed to 30,000 randomly selected households in the Prosperity Plan region (Butler, Harvey, Reno, Sedgwick and Sumner counties) in early May 2014. Approximately 2,100 total surveys were returned to Wichita State University's Hugo Wall School of Public Affairs. This document summarizes the aggregate results of the completed and returned surveys.

## Need for Change and Strength of Community

Survey respondents agree or strongly agree that people living in South Central Kansas should be concerned about:

- ...the region's aging infrastructure (streets, bridges, water, sewer, etc.) and the rising cost of maintenance and/or replacement. (94%)
- ...the decline in the number of good-paying jobs. (93%)
- ...whether communities will have an adequate supply of water. (91%)
- ...the rising cost of and need for health care services. (89%)
- ...the lack of cooperation and coordination within and between local government organizations. (87%)
- ...the number of young people leaving the region every year who are choosing not to return. (84%)

Fewer survey respondents agree or strongly agree that people living in South Central Kansas should be concerned about:

- ...the number of individuals leaving cities or counties because of the lack of suitable housing. (45%)

Survey respondents are willing to put community interests above personal interests (74% agree or strongly agree), but are not sure that their fellow citizens will do the same (29% agree or strongly agree).

Survey respondents are willing to make personal sacrifices for the well-being of future generations (87-94% agree or strongly agree).

Survey respondents are willing to take responsibility to help create opportunity for all citizens if citizens are willing to do their part (90-95% agree or strongly agree).
